ReMed of Louisiana Awarded a Three-Year CARF Accreditation

Covington, LA 12/11/19 – CARF International announced that ReMed of Louisiana has been accredited for a period of three years for its Residential Rehabilitation Programs: Brain Injury Specialty Programs (Adults). This accreditation decision represents the highest level of accreditation that can be awarded to an organization and shows the organization’s substantial conformance to CARF standards. An organization receiving a Three- Year Accreditation has put itself through a rigorous peer review process and demonstrated to a team of surveyors during and on-site visit that its programs and services are:

- High quality
- Measureable
- Accountable

“We are proud of the ReMed team for this achievement,” said Mary Pat Murphy, MSN, CRRN, BSN, CBIST. “Meeting the standards set forth by CARF keeps our team focused on high quality outcomes and value for the individuals we serve.”

ReMed has provided post-acute, brain injury rehabilitation and supported living services since 1984 and currently offers residential, outpatient, home and community services in Pennsylvania, New Jersey, Maryland and Louisiana.

ReMed of Louisiana (formerly the NRLC program in Covington, LA) was acquired by ReMed in November of 2017.

About ReMed
